

B220

THE HIGH PERFORMANCE SOLUTION

B220 is a premium wax grade that has been enhanced for increased print performance. A high carbon content ensures a sharp, crisp, black image - crucial for the high quality of barcodes, text and graphics.

B220 has been developed to perform upon an extremely broad range of plain and coated paper. Excellent image density and edge definition with a low energy release combine to deliver a solid, single solution for today's high-volume market segment.

CHARACTERISTICS

- Revolutionary low print energy requirement
- Superb scuff resistance
- 'Drop in' product to all competitors waxes
- Dark dense print
- Compatibility to a wide range of paper stocks
- Anti-static Printhead Saver® coating for printhead protection.

B220 RESIN ENHANCED WAX IDEAL APPLICATIONS

- General Purpose Labelling
- Fresh Produce - Pack and Box End Labelling
- Retail Labelling
- Warehouse & Logistics

High Sensitivity Premium Wax

B220 is a thermal transfer ribbon which gives excellent performance on a wide variety of labels. The resin enhanced premium wax is designed to operate at low energy and the high sensitivity ink gives excellent print density and definition.

SPECIFIC FEATURES

High blackness - High sensitivity - Fine definition - Wide range of label stock

RECOMMENDED SUBSTRATES

Rough paper - Plain paper - Tag - Coated paper - Synthetic paper - Film (PET,PVC)

RIBBON PROPERTY

ITEM	VALUE	FEATURES CHART
Carrier	Polyester film	
Thickness of ribbon	< 8.0 um	
Colour	Black	
Heat resistant coating	Silicone base	
Ink melting point	70 °C	
Optical density (Transmission)	> 1.30	
Optical density (Reflection)	> 1.90	
Print Speed	2"/sec - 12"/sec
